

**We** believe that our customers benefit from our more than 25 years of experience in the industry. We trust that listening to our customers will guide us for another 25 years. Here are a few testimonials that speak to the heart of our vision, expertise, and values...

**Those Who Need Compliance...**

“We had an OSHA inspection and a county environmental health inspection of our ammonia refrigeration system within three months of each other. I was completely overwhelmed by the pressure that my boss was putting on me to produce maintenance documentation and operating procedures to satisfy these government agencies. PSMWriter© saved me countless hours and mounds of paperwork so that I was able to spend more time taking care of the system and less time doing paperwork.”

*Maintenance Technician*  
Lucich Farms

“After searching tirelessly for a comprehensive solution to our RMP, PSM, and CalARP needs, Giumarra Vineyards finally found a solution in Resource Compliance’s PSMWriter© software. We were so convinced by the software’s features that we have decided use it at our cold storage, bottling plant, and winery.”

**George Giumarra**  
*Owner*  
Giumarra Vineyards

“I’ve been responsible for implementation of the RMP, PSM, and CalARP regulations at two facilities for the last five years. I found the regulations confusing and complex until I was introduced to Resource Compliance’s PSMWriter© software. PSMWriter© has given me the confidence to get more involved in the individual program elements so that I don’t have to spend so much money on outside consultants and contractors.”

**Jamie Minnie**  
*Cold Storage Manager*  
Delano Farms

**...Know Compliance...**

“Resource Compliance’s software is an excellent addition to any safety manager or engineer’s library. Their attention to detail and thoroughness makes their products a great asset to anyone involved in compliance, risk management, operational safety or incident investigations. PSMWriter© is versatile enough to be used in a wide range of industrial settings... and did I mention how easy and intuitive PSMWriter© is to use?”

**Matthew D. King, PhD, CSA**  
Competent Scientific Investigations  
(CSI Central Valley)

**...Do Compliance.**

“Resource Compliance's software has provided the tools that we have been looking for to give us the edge in compliance consulting.”
